		presentation and close		
--	--	------------------------	--	--

Target Audience:

Paediatrician, training and career grades, with an interest in allergy, immunology and infectious diseases

Aims and objectives:

Provide delegates with expert opinion on the management of important conditions relevant to paediatric allergy, immunology and infection.

Discuss hot topics in paediatric allergy (infant feeding), immunology and infectious disease (immunisation policy and diagnostics of serious infection).

Update delegates on collaborative research projects relevant to UK paediatric allergists, immunologist and ID specialists.

Showcase high quality research carried out by trainees in paediatric allergy, immunology and infectious disease.

Teaching methods:

Combination of plenary lectures, debate, interactive trainee presentations.
